

RONALD R. DEMERITT

Senior Technical Account Manager | Cybersecurity & Cryptography Specialist

Roswell, GA | 404.702.6664 | rdemeritt@gmail.com | [linkedin.com/in/rondemeritt](https://www.linkedin.com/in/rondemeritt)

Executive Summary

Strategic and highly technical Customer Success Leader with over 25 years of experience in cybersecurity, cryptography, and enterprise-scale infrastructure. Proven track record as a **Trusted Advisor** for large-scale enterprise organizations, navigating complex migrations in future-ready security environments. Expert in bridging the gap between elite engineering teams and C-suite stakeholders using the "Feel, Felt, Found" methodology to drive technical adoption and long-term ROI. Currently spearheading cryptographic orchestration and AI-driven automation workflows within the Core Cryptography Group at Coinbase.

Core Competencies

- **Domain Expertise:** Next-Generation Cryptographic Transitions, Multi-Party Computation (MPC), Key Management Systems (KMS), Encryption, Vulnerability Management.
- **Strategic Leadership:** Technical Account Management (TAM), Strategic Business Reviews, Project Leadership, Cross-Functional Orchestration (Sales/Product/Engineering).
- **Technical Proficiency:** AWS/Azure/GCP Cloud Security, Docker/Containerization, Network Security (Cisco, Checkpoint, Juniper), AI Agentic Frameworks.
- **Client Mastery:** "Feel, Felt, Found" Communication, Conflict Resolution, Technical Value Realization, Product Roadmap Influence.

Certifications

- **CISSP** – Certified Information Systems Security Professional ((ISC)²)
- **GCIA** – GIAC Certified Intrusion Analyst (SANS)
- **CCSA** – Checkpoint Certified Security Administrator
- **CCNA** – Cisco Certified Network Associate

Professional Experience

Coinbase, Inc. | Atlanta, GA

Technical Account Manager – Core Cryptography Group | Jan 2022 – Present

- **Drive Technical Adoption:** Lead the strategic migration and wind-down of legacy Unbound systems for high-stakes enterprise clients, ensuring zero service disruption during the transition to scalable, modern cryptographic frameworks.
- **Trusted Advisor:** Consistently resolve the vast majority of complex Tier 2/3 technical cases for global cryptography clients, utilizing proprietary diagnostics to mitigate high-stakes security risks.
- **Strategic Growth:** Partner with legal and account teams to negotiate contract extensions and expansions by demonstrating clear security ROI and risk reduction.
- **AI Innovation:** Developing custom AI agentic harnesses to automate complex cryptographic troubleshooting and internal workflows, aligning with next-generation AI security posture management (AISPM).

Unbound Security | Atlanta, GA

Technical Account Manager | Aug 2021 – Jan 2022

- **Complex Implementations:** Designed and deployed intricate key management and blockchain integrations using proprietary MPC protocols (UKC, CASP).
- **Sales Engineering Partnership:** Drove technical validation during pre-sales cycles, partnering with Sales Engineering to secure enterprise deals through hands-on technical demonstrations.

- **Operational Excellence:** Created Docker-based automation scripts to accelerate client environment deployments, reducing setup time from hours to minutes.

Dell SecureWorks | Atlanta, GA

Network Security Sr. Consultant – MSS Engineering | Feb 2014 – Aug 2021

- **Scale Operations:** Served as global Subject Matter Expert (SME) for the iSensor IPS and Red Cloak Advanced Endpoint Threat Detection services.
- **Global Impact:** Supported the configuration and health of 6,000+ globally deployed devices and massive-scale, multi-million endpoint environments for world-class enterprise clients.
- **Cross-Functional Impact:** Collaborated directly with Product Management and Software Engineering to define the roadmap for security management tools, acting as the primary "technical voice of the customer."
- **Strategic Reviews:** Led advanced troubleshooting sessions for complex multi-vendor networks, forging strong partnerships with strategic accounts through proactive performance optimization.

Network Security Sr. Advisor / Support Engineer | Apr 2011 – Feb 2014

- Developed streamlined engineer workflows to enhance client experience and reduce time-to-resolution for complex network security incidents.
- Mentored SOC teams on advanced firewall and IDS/IPS management (Cisco, Checkpoint, Juniper, Sourcefire).

SecureWorks, Inc. | Atlanta, GA

SOC Shift Supervisor / Sr. Security Analyst | Aug 2006 – Jun 2009

- Led a team of analysts in 24/7 monitoring and remediation of security events, serving as the primary escalation point for client satisfaction.

Internet Security Systems (ISS) | Atlanta, GA

Sr. Security Analyst | Nov 2004 – Jul 2006

Georgia Department of Agriculture | Atlanta, GA

Computer Security Analyst | Nov 2002 – Nov 2004

- **Key Management Strategy:** Designed and deployed the department's first enterprise key management systems utilizing Microsoft Certificate Services and Baltimore Technologies OmniRoot CA.

E*Trade Group Inc. | Atlanta, GA

Systems Security Analyst | Jun 2000 – Jan 2002

Education

Wichita State University / University of Kansas Computer Science & Engineering Coursework (Problem Solving, Data Structures, Algorithms, Java/C, Networks)

Personal Projects & Interests

- **AI Architect:** Building advanced LLM agentic harnesses (Anthropic/Gemini) to optimize technical workflows.
- **Discipline:** BJJ Black Belt – Applying strategic calm and resilience to high-pressure technical environments.
